RELEVANT EXPERIENCE

Front End Developer

KPIBAR. | July 2020 - present

Working as a Front End Web Developer on a spain based Saas company, Where I translate AdobeXD designs to responsive and interactive user interface using GatsbyJS

Upwork

UPWORK. | September 2020 - present

I also work as a part-time freelance web developer, I've developed a good number of projects including responsive web applications and Content management systems using ReactJS

SCHOOL BACKGROUND

Axiom

Course - Cloud Native Computing / MERN Stack Development

Cloud native is an approach to building and running applications that exploits the advantages of the cloud computing delivery model. Whereas, MERN is a javascript Stack for building dynamic web sites and web applications. This course taught me about the devOps and Full Stack Web Development.

Jinnah Govt. College

Intermediate - (Pre-Engineering)

During my time in college, I continued learning physics, chemistry and mathematics. Also during this time, I started to create static HTML5 and CSS3 websites.

Green Land Public School

Highschool - (Computer Science)

I completed School, where I enjoyed doing computer science, maths, physics and arts. I realized in the last year of school that I wanted to do something with software, so I started learning HTML5 and CSS3.
